MASSACRE OF RADIUM LECTURE BY DR. JOHN COX FOR FOREIGNERS IN CHINA

TO WINTER NIGHT
THIS EVENING

Noted by Will Open
Session for Organization
Officers to Be Elected

D ACTION BY LEGATIONS THING CAN BE DONE BEYOND TEACH OF GREED: WITH OUT INVESTIGATING FORCE

PEKIN, Nov. 20.—Chinese officials said to report that a massacre of foreigners as well as Manchus has occurred at Shih Fu, Shih Si province. The legations believe that the report will prove true. There are 40 legations in Shih Fu and many missionaries in the smaller Shih Si towns to the present only Chinese reports have been received regarding the massacre. There has been no postal or telegraphic communications with Shih Si for more than three weeks.

At night the Swedish missionaries, Dr. Sandberg and Erickson, arrived here from Tien Tsin. They said telegram had been received from Shih Si before their departure from south Shih Si, announcing the murder of Mrs. Beckman, a school mistress, and five foreign children.

Any Chinese girl in the school was missing for Manchus believed to have been murdered. A man, Phillip Mander, who was in Chinese postal service, was among those killed.

News, San Ling and Erickson say that a magistrate in their own town sent them \$400 each to leave the province. Shih Si probably is the most foreign province in China proper, having received a son at the hands of the foreign troops in 1900.

Robbers Attack.

A highwayman in Honan attacked and injured a party of fugitive missionaries, killing one of them. Nowhere are there foreigner been seen as the rebels everywhere giving protection, but it is feared that they may cause trouble.

The night of the raid Anderson and Delester Kindelstinger drove to the scene of the robbery while other members of the mob came on motorcycles.

Millions in Every Atom.

"The Alpha and Beta radiations are particles of matter just as real as bullets, yet there are millions of them in every atom of radium. They pass right through a human body, for instance, and cause sickness such as resulted in the death of Dr. Harry Cox of London, Eng., who, by the way, was not a native of mine, although born

in the United States.

MINE PROMOTERS FINED

Two Men Who Sold Lost Bullion Co...
pany Share Pleaded Guilty

to Misuse of Mail

FASHINGTON, Nov. 20.—Reiterated that Japan or Russia or the other nation has landed large forces in China, or is mobilizing forces for that purpose, has failed to even a ripple of excitement in state department.

In understanding is said to be that the powers chiefly interested in the war are a preponderant position in China.

On the ground that "Unrest" in China is in much better condition than anyone in Washington took after the safety of Americans.

The state department has instructed him to order all the men in the interior to go to the front.

(Continued on Page Two.)

Taylor Presents Budget; City
Council Will Act Tomorrow

THE BIG BUDGET, presented by Mayor Taylor, is an adjustment of the budget, the total amount being \$1,000,000 less than the original estimate. The new budget is \$1,000,000 less than the original budget, and \$100,000 less than the original budget.

THE BUDGET, presented by Mayor Taylor, is an adjustment of the budget, the total amount being \$1,000,000 less than the original budget.

ELECTRIC TURNSTILES

One of the novelties at the Indiana state fair was the electric turnstiles. The visitor dropped a half dollar in a slot which unlocked the gate and registered his attendance in the superintendent's office. This device kept accurate account of the attendance from several gates at once.

What the Press Agents Say**WONDERFUL PICTURES AT OPERA HOUSE**

Some wonderful motion pictures are to be seen at the Opera house this week, commencing this afternoon and continuing every afternoon and night this week, excepting Friday. The prices are 30 cents for any seat on the lower floor and 50 cents in the balconies and galleries, the lowest scale of prices ever attempted in this city for pictures of this class. The performances will run from 3:30 o'clock until 5:30 o'clock, and from 7:30 o'clock until 10:30 o'clock.

The great film showing the naval parade as reviewed by President Taft, is the feature of today's and tomorrow's program. This film, which represents the scene of motion picture taking, shows the great United States

now in review, and presents a thrilling sight of these great ships.

The Austin flood is another subject which will be shown. This film is said to be almost terrifying. The effect obtained and the remarkable fidelity with which the camera reproduces these scenes, has never before been equaled in the motion picture world.

Added to these fine subjects is the fact that Manager New has secured the best light effects and the largest picture ever seen in this city. Furthermore, the pictures are shown in a comfortable theater, with good ventilation.

COMMENTS ON MORMON CHOIR

The Mormon Tabernacle choir is a magnificent and imposing chorus. Their singing is wonderful—Padrewski.

I have heard most of the choirs and large choruses of the country, and played with many of them. Certainly the Mormon Tabernacle choir is the best trained of any in the United States. In New York it would cause a sensation.—John Philip Sousa.

The balance, tone, shading and enunciation of the chorus are little short of perfect, and Conductor Stephen has every reason to feel proud of the results of his long and patient training.—Editorial, Omaha World-Herald.

Seldom has a better trained chorus appeared in Chicago.—Chicago Record-Herald.

The Mormon choir will give one con-

CHILDREN'S WEEK AT THE MAJESTIC THEATER

This is going to be children's week at the Majestic theater, and if, when Friday night rolls around, there is any youngster in town who has not seen Prince Jack and the other attractions for the little folks, he will have been the victim of real injustice on the part of his parents. And the parents will get the worst of it, too, for the younger who has such a chance to enjoy himself as much as is possible at the Majestic, this week is a better boy, and in nine cases out of ten he will take to heart the lesson in obedience afforded by the wonderful monkey, who is the feature of the bill.

No circus ever gave the children more of a treat than does Prince Jack, and the several hundred children who were at the Majestic Saturday to see him, can find nothing else to talk about. Prince Jack seems almost human. Especially does he in the way he acts, and one can hardly help believing that he does some of his funny stunts understandingly. One could be sure he did if he would only laugh, but monkeys don't laugh.

This little fellow—he isn't as large as a year-old boy—rides a tiny bicycle all over the stage, gets on and off just like a person, runs into the footlights and winds up by riding the wheel blindfolded. He also skated on roller skates, and if it were not for his forelegs and tail would have some bad tumbles. But the most wonderful thing he does is play chimes, repeating airs played by the orchestra, and finally accompanying them in a long series.

But he is not the only delight for the children. John Geiger and Nellie Walters, with their hand organ, amuse, and the former tickles the youngsters half to death with his talking violin. And the Majestoscope motion picture, which tells of a little boy and a little blind girl, who both want a stray kitten, and how both finally get it, delights the youngsters immensely. So, too, does the odd tumbling in the skit, "Imagination," and the older youngsters can appreciate the fun in Willard Hutchinson's sketch, in which a bashful young fellow is afraid to propose.

Altogether, it is a great bill for the youngsters, and the grown folks who have seen it say it is as enjoyable to them as to the little tots. Performances at 2:45, 7:30 and 9:15 p.m. Prices 10c, 20c and 30c.

The Best Show of the Season—Don't Miss It.

BASEBALL TODAY AT THE CRYSTAL

The announcement of the presentation today and tomorrow at the popular little picture playhouse of the official film of the world's championship series of 1911, has been received with considerable interest by local fans.

Views are shown of games both at New York and Philadelphia, and the star members of the winning Athletics and their formidable rivals, the Giants, are seen in some of the hair-raising plays of the most notable series of games ever contested. Few will miss this big feature of a bill, every member of which is "extra special," including a 20-minute laugh, "The Taps Ashore" and the great Edison military picture, "A Day at West Point." No raise of price.

THE SECRET OF A GOOD PICTURE

"The Man Behind the Light" is the big factor in the motion picture business today. He must be a specialist in his line of work, an artist, if you will. The science of lighting is not an easy one, and requires years to master.

The reason why the pictures presented at the Lyric and Crystal theaters in this city are so brilliant and vivid, and yet not harsh, lies mainly in the personnel of the operating staff,

Curtis-Rapson Coal Co.Lignite Lump or Nut

men who have made the work a study, and are masters of the profession. Of course, the subject matter of the pictures is important. At these houses only are the films passed upon by the national board of censorship shown. Nothing objectionable has ever been presented at either house, or will be.

NO ACTION BY LEGATIONS

Nothing Can Be Done Beyond
Reach of Gunboats With-
out Invading Force

PEKIN, Nov. 20.—Chinese officials confirm the report that a massacre of foreigners, as well as Manchus, has occurred at Shih Fu, Shian Si province. The legations believe that the report will prove true. There are 40 foreigners in Shian Si and many missionaries in the smaller Shien Si towns. Up to the present only Chinese reports have been received regarding the massacre. There has been no postal or telegraphic communication with Shian Si for more than three weeks.

Last night the Swedish missionaries, Regnér, Sandberg and Erickson, arrived here from Tien Tsin. They said telegram had been received from Shian Si before their departure from south in Shian Si, announcing the murder of Mrs. Beckman, a school mistress, and five foreign children.

Many Chinese girls in the school who were mistaken for Manchus because of their big feet, were also reported to have been murdered.

A German, Philip Manners, who was in Chinese postal service, was among those killed.

Messrs. San Reg and Erickson say that a magistrate in their own town offered them \$400 each to leave the province. Shian Si probably is the most foreign province in China proper, if having received a lesson at the hands of the foreign troops in 1900.

Robbers Attack.

Highwaymen in Hohai attacked and robbed a party of fugitive missionaries, injuring one of them. Nowhere apparently have foreigners been attacked by rebels everywhere giving them protection but it is feared that lawlessness must ensue.

The Peking government is powerless beyond Hohai and Chia Li.

The legations have taken no action as yet, but they have the reported killing of foreigners under consideration. Without a strong invading force, however, nothing can be accomplished beyond the reach of the Yangtze gunboats. Most of the legations advised their people in the interior to escape three weeks ago. Many disobeyed, however, they were in danger. Some of the women and children were sent to the coast.

State Department Calm.

WASHINGTON, Nov. 20.—Relaxed rumors that Japan or Russia or some other nation has landed large forces of troops in China, or is mobilizing soldiers for that purpose, has failed to stir even a ripple of excitement in the state department.

An understanding is said to exist among the powers chiefly interested that none shall assume a preponderant position in China.

Taking the ground that Minister at Peking is in much better position than anyone in Washington to look after the safety of Americans in China, the state department has instructed him to order all the Americans in the interior to proceed to the coast.

(Continued on Page Three.)

The wonderful powers of radium and radio activity will be discussed tonight by Dr. John Cox, one of the most learned men upon that subject in the world, before the annual meeting of the Winter Night club at the Antlers hotel. Dr. Cox has devoted many years to experiments and study of radium, and during his lecture, tonight he will illustrate his points by experiments and views of radium and its powers.

Dr. Cox is making a tour of the world lecturing upon science under the auspices of the Louden County council extension course. In discussing radium and its kindred subjects yesterday, Dr. Cox said:

"The radium atom gives off particles which radiate with the regularity of bullets from a machine gun and these we have separated into three classes according to their speed. The lowest, which move at the rate of 12,000 miles a second, we call Alpha; the next fastest, moving at the rate of 120,000 miles a second, Beta; and the third class, Gamma, the last, with a velocity approximately the same as light, 186,000 miles a second."

A paper covering will stop the Alpha radiations, a half inch of lead will stop the Beta bullets and 18 inches of lead will stop the Gamma particles, but in a little while the entire 18 inches of lead covering would be fused with the heat and the radium would be freed to radiate its deadly rays about the room. No person could be long in the same room with even a gramme of radium without sustaining fatal effects, and a half-pound of radium has enough energy to drive the biggest dreadnaught across the Atlantic if it could be harnessed. There are not more than 50 or 60 grammes of radium in the entire world, or between three and four grams.

Millions in Every Atom.

The Alpha and Beta radiations are particles of matter just as real as bullets, yet there are millions of them in every atom of radium. They pass right through a human body, for instance, and cause abscesses such as resulted in the death of Dr. Harry Cox of London, Eng., who, by the way, was not relative of mine, although our

relatives are numerous, although our

MINE PROMOTERS FINED

Two Men Who Sold Lost Bullion Com-
pany Shares Pleaded Guilty
to Misuse of Mail

DENVER, Nov. 20.—Two promoters of the Lost Bullion Gold Mine company, W. B. Cameron and Arthur Levan, suddenly appeared in the federal court today and pleaded guilty to charges of misuse of the mails. They said, they had paid \$16,000 back to purchasers whom they had induced to buy shares in the company.

The men were fined \$200 and \$100 and costs, respectively, by Judge Robert E. Lewis.

The defendants, including Cameron and Levan, were convicted here over five years ago on charges of using the mails to defraud.

The case was taken to the United States court of appeals.

The Lost Bullion property was ad-

vertised as a valuable old Spanish mine in New Mexico which had just been rediscovered.

(Continued on Page Three.)

Mayor Presents Budget; City Council Will Act Tomorrow

The 1912 budget was presented by Mayor Avery at an adjourned meeting of the city council yesterday morning. It provides for the expenditure of \$19,968.60 during the coming year, under a 20-mill tax levy on an assessed valuation of \$12,334,450. The budget provides for an expenditure of \$24,517.77 more than that for this year, the comparative amounts in the various depart-

ments being as follows:

Water.....\$174,010.00 \$186,000.00
Finance.....73,978.89 8,958.83
Safety.....50,000.00 75,200.00
Works and property.....\$1,006.00 69,400.00
Health.....57,218.72 38,915.00
Parks.....26,460.00 25,000.00

Mayor Avery pointed out that increased demands for sinking funds and other bonds increase the expense in the finance department. In 1912 it is proposed to retire star bonds to the extent of \$88,610, and \$30,720 worth of half bonds.

There will be a number of disbursements, said the mayor, when he reappears to read the budget, and I greatly regret owing to the limited amount to be received from taxes, that we are compelled to eliminate many worthy and necessary improvements at this time.

Action on Budget Tomorrow.

Action on the budget will be taken at the meeting of the council to be held tomorrow morning. The commissioners may reduce or eliminate any item, if they have no power to increase the amounts appropriated.

A number of women attended yesterdays meeting through their interest in the proposed public playgrounds, public comfort station and an increase in the appropriation to the Associated Charities. The playgrounds, mayor Avery said, is being looked after by the park commission and the school board, the grounds to be in

The new United States court of commerce in session at Washington. From left to right are: Robert W. Archbold, John E. Garland, Martin Knab, William H. Hunt and Julian W. Mack. This court was created by amendment to the interstate commerce act less than a year ago. It was given a power of review over the decisions of the inter-state commerce commission. The new court's most important ruling was made recently, when it granted an injunction to the railroads staying the order of the commission to reduce transcontinental freight rates.

CURIOS CROWD FILLS COURT TO SUFFOCATION

Law Set on Judges Dais in Order Not
to Miss Any of Testimony Re-
garding "Tar Party."

LINCOLN CENTER, Kan., Nov. 20.—While the young victim sat motionless, bretting not the least sign of a tear, Chester Anderson, a laborer of Beverly, this county, related to a jury this afternoon the startling story of how 16 men of Union county, himself one of their number, drugged Miss Chamberlain, a school teacher, from a buggy near Twelve Mile school house and administered a coat of tar to her naked body.

At the corner of Pike and Cascade avenues at 2 o'clock this morning, Dr. Paul Lennox and W. E. Current, the latter being from Denver, were held up at the point of a revolver in the hands of a man believed by them to be an Italian. The two men were on their way from the El Paso club to the Antlers hotel when the holdup occurred.

Under cross-examination, Anderson admitted that he had never heard any gossip against Miss Chamberlain and said his part in the barring followed a talk at Clark's mill, the day of the "party," when Sheriff Clark and Mr. Simms asked me if I would take Mary Chamberlain out that night that they wanted to tar her. I said no.

Anderson told of how he had arranged with Ed Ricord to take the girl for a buggy ride and of going back to Clark's mill to notify the "gang."

The night of the tarring, Anderson and Delbert Kindelshager drove to the scene in a buggy while other members of the mob rode on motorcycles.

Masks of Gaspoons.

When he got to the scene of the tarring Anderson said he was forced to laugh, for there stood Everett Clark, the wealthy miller of Beverly with a gunny sack over his head, through which eyes, and breathing holes had been poked and by his side was Jay Fitzwater, his head covered with a null bag. When Miss Chamberlain and Ricord drove by, Anderson said he and Kindelshager stepped into the road and pointing a toy pistol at them, halted the pair.

Anderson said two of the men were Everett Clark and Fitzwater. The third one he did not know.

"On what part of Miss Chamberlain's body did they put the tar?" Anderson asked.

"On her lower limbs as near as I could tell," he replied.

Anderson said after the act was accomplished, Miss Chamberlain was helped into her clothes and with tears dripping from them, she got into the buggy and drove away with Ricord.

Alta Lindernuth, one of Anderson's companions, corroborated the testimony. He said he recognized eight of the men since arrested for the crime.

Hid to See the Fun.

Lindernuth said he took no part in the tarring, merely hiding behind the fence "to see the fun."

On the stand, Lindernuth plainly was frightened. At times his voice was inaudible. He told of planning for the "tar party" at the Clark mill. The defense objected to the phrase "tar party" and it was stricken out. When the arrangements were made, there were present Everett Clark, the defendant, Simms and eight or 10 other men.

Miss Chamberlain hollered, "Oh, said the witness, when asked to describe what he had witnessed.

A huge crowd filled Judge Grover's court room about to suffocation.

Scores of men crowded silently all day behind the bar rail, unable to find seats, many came inside the rail and several sat down on the steps of Judge Grover's dais, in order that they might not miss a word of what was said. The judge again told the deputies to be careful that no minors were admitted.

Miss Chamberlain, it was said to-night, would tell her story to the jury tomorrow.

Surgeon General Wyman

suicidally to carbuncle.

WASHINGTON, Nov. 21.—Walker Wyman, surgeon general of the United States public health and marine hospital service, died at Providence hospital at 12:20 o'clock this morning after an illness of several months.

The direct cause of Dr. Wyman's death was a carbuncle, which developed several years ago with the city, and which will not expire for two years.

The city commissioners are of the opinion that the mayor's appropriations are as high as the funds at his command permit. The complete budget is as follows:

SERIOUS FIRE AT PEORIA, ILL.

PEORIA, Ill., Nov. 20.—Peoria's entire fire-fighting apparatus has responded to a call from the Avery Manufacturing company's plant to combat a conflagration that threatened the numerous buildings.

(Continued on Page Two.)

PERSIA APPEALS TO THE POWERS SAYS RUSSIA THREATENS ITS INDEPENDENCE

Smaller Country Asks Investi-
gation and to Submit Case
to The Hague

WASHINGTON, Nov. 20.—Russia's aggressive attitude toward Persia has brought about a crisis that has driven the latter country to appeal to the powers for assistance.

Persia desires an investigation of the Russian entanglement and an opportunity to submit the entire case to The Hague.

Russia, it is said, has ignored both requests, and is continuing a policy which Persia fears will threaten its independence and integrity before the case can be presented to the world.

It is believed the note sent to England asking for assistance is being held pending adjudication, has been sent also to the United States and other nations. So far this country has taken no hand in the Persian situation, although the crisis has developed largely around W. Morgan Shuster, the American treasurer general, who was recommended to Persia by the American state department.

Forced to Make Request.

The action of Russia in continuing her threatening attitude without waiting for the formation of the new ministry, it is claimed, is the factor that has brought Persia to the point of asking for outside intervention.

It is asserted that the independence of action given to Treasurer General Shuster by the new Persian parliament was particularly aggravating to Russia. The seizure of property of the brother of the deposed shah was made at Mr. Shuster's direction. The Persian government insists that it has the right to an apology from Russia for the activity of Russian consular agents in attempting to prevent the seizure.

Russia, on the other hand, has vigorously pressed demands for apologies and has threatened the seizure of the provinces of Giallar and Mazduhran if Persia does not comply. All diplomatic relations between the countries have been severed by Russia.

A cablegram received by the Persian-American Educational Society in Washington today, from the Persian citizens of Calcutta, follows:

"Persians assembled protest against the foreign aggression in Persia and expect the American nation to support Mr. Shuster."

Texas Militia Called Out.

AUSTIN, Tex., Nov. 20.—At the request of the sheriff of Garza county, who reported that he had information that a party of alleged revolutionaries would attempt to cross the border into Mexico and Brownsville, Governor Culbertson tonight ordered a company of state militia stationed at Brownsville to assist the county authorities in enforcing the neutrality laws. A detachment of state rangers has also been ordered to Brownsville.

A later dispatch from Brownsville reported that the state militiamen had responded to the call and were working in conjunction with the county officials.

Assistant Attorney General Lane has informed the governor that the state militia and rangers are invested with ample authority under the laws of Texas to seize arms being accumulated in times of peace when circumstances indicate threatening movements against friendly powers or neighbors.

It is also within the power of the state authorities, the opinion of Mr. Lane continues, to bring about the arrest of persons interested in the accumulation of munitions of war.

Governor Culbertson had asked the attorney general's office here as to what extent the state might act in view of the circumstances.

(Continued on Page Three.)

MEXICO SENDS TROOPS TO BORDER

Orders Mobilization of 25,000
Men in Zone Paralleling
Northern Boundary

U. S. SOLDIERS ALSO MOVE
Third and Fourth Cavalry on
Patrol Duty—Texas
Militiamen Out

MEXICO CITY, Nov. 20.—Orders to mobilize 25,000 men in a zone paralleling the northern boundary line were issued today by the war department.

The government is skeptical concerning the inauguration of the Revolucionario movement, but should it begin, President Madero and his cabinet believe the army would be sufficient to check it.

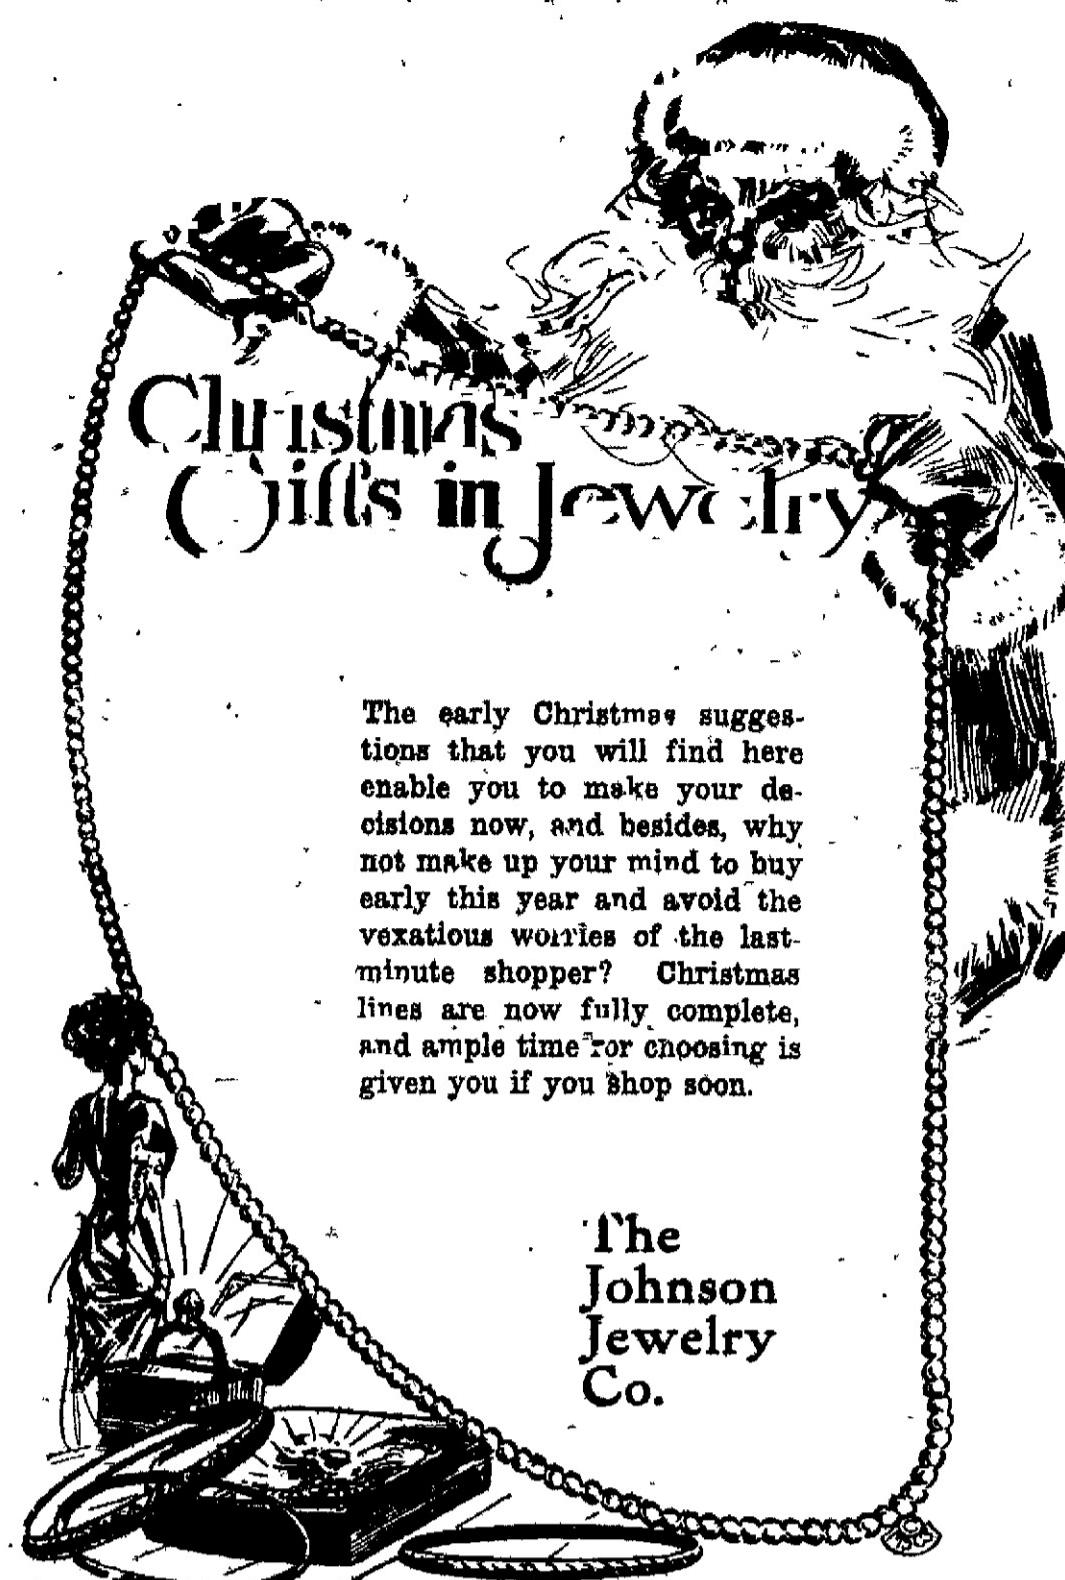

All these troops will be under the order of General Geronimo Trevino with headquarters at Monterrey, but the chief of operations will be General Givens Robles, now at Torreon in command of 1,000 men, who are being held in that city as a result of the strike. Tomorrow they will join in the northern movement. Burales and volunteers will be under the command of Col. Francisco Narvaez. With the exception at the rurales, most of who will remain in the states of Durango and Chihuahua, the regular forces are almost equally divided between infantry and cavalry. In addition, 2,400 volunteers of the state of Nuevo Leon, under the command of Nuevo Leon, have under the command of Naredo, been detailed for service along the frontier. A corps of engineers and a medical corps will also be sent into the field immediately.

Russia, on the other hand, has vigorously pressed demands for apologies and has threatened the seizure of the provinces of Giallar and Mazduhran if Persia does not comply. All diplomatic relations between the countries have been severed by Russia.

A cablegram received by the Persian-American Educational Society in Washington today, from the Persian citizens of Calcutta, follows:

"Persians assembled protest against the foreign aggression in Persia and expect the American nation to support Mr. Shuster."

SANTO DOMINGO PRESIDENT IS VICTIM OF ASSASSINS

Thousands Now Use This Low-Cost Cough Syrup

A Family Supply for 50¢, Saving You \$2. The Quickest, Best Thing You Ever Used or Money Refunded.

The prompt and positive results given by this inexpensive cough medicine have caused it to be used in more homes in the U. S. and Canada than any other cough remedy. It gives instant relief and will usually wipe out the most obstinate, deep-seated cough inside of 24 hours. It quickly succeeds, even in whooping cough and croup.

A 50 cent bottle of Pinex, when mixed with home-made sugar syrup, makes a full pint—a family supply—of the most pleasant and effective cough remedy that money could buy, at a saving of \$2. Easily prepared in five minutes—full directions in package.

Children take Pinex Cough Syrup willingly because it tastes good. It stimulates the appetite and is slightly laxative, but without excellent features. Splendid for hoarseness, throat tickle, bronchitis, etc., and a prompt, successful remedy for infantile lung trouble.

Pinex is a special and highly concentrated compound of imported Norway White Pine extract and is rich in mucilage and other natural healing pine elements. Simply mix it with sugar syrup or strained honey, in a pint bottle, and it is ready for use.

Pinex has often been imitated, but never successfully; for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to the Pinex Co., Ft. Wayne, Indiana.

MOTHER RIDES MILES IN BITTER COLD TO SAVE SON

GRAND JUNCTION, Nov. 20.—With the eyes of her 8-year-old son almost destroyed and his right arm shattered, as the result of playing with dynamite caps, Mrs. C. F. Milburn, wife of a ranchman, living 20 miles from here, arrived here after a wild night ride in freezing temperature, to obtain surgical assistance, which she hoped would save her son's sight.

Hardly had the accident occurred, when, without stopping to get her wraps, she seized the boy, mounted a horse and carried her child over the

mountains to this city. The sight of one eye probably will be saved, say surgeons.

This gives a grand total of receipts and expenditures from all sources for the various departments and commissions of the city of Colorado Springs, Colo., for the current year, the sum of \$698,288.60.

The above estimates are based upon the receipts and expenditures of the several departments of the city for the past 12 months. I trust they will prove ample to meet all the necessary requirements of the city and to insure the public good service during the coming year. Owing to the limited amount to be received from taxes, licenses and other sources, I regret very much that we're absolutely compelled to eliminate from this budget many most worthy and very necessary improvements desired by our citizens. My estimate for the tax levy for the year 1912 is based upon a 20-mill levy based upon assessed valuation of \$42,884,400.00, which is the maximum under the charter.

The above budget and estimates are made after a most careful and thorough examination of every department of this city.

I most respectfully submit this budget for year 1912, for your consideration and action thereon.

I beg to remain your obedient servant,

(Signed) H. F. AVERT, Mayor.

Then why rest contented with thin, scraggly, rough hair? Ayer's Hair Vigor gives softness and richness to the hair, makes it thicker, heavier. Cannot change the color. Safe to use? Ask your own doctor.

Mayor Presents Budget; City Council Will Act Tomorrow

(CONTINUED FROM PAGE ONE.)

Colorado Springs, Colo., Nov. 20, 1911.

To the Honorable Council of the City of Colorado Springs, Colo.—

Gentlemen:

"MAYOR'S BUDGET."

In compliance with the provisions of the charter, article 7, section 40, I herewith submit to you for your consideration and action thereon my "budget" of the estimated receipts and expenditures of all departments of the city for the ensuing year, to enable you to adopt an appropriation for tax levy for the year 1912, as follows:

ESTIMATE OF RECEIPTS.

Delinquent Santa Fe 1910 tax	\$ 6,000.00
Interest on \$6,000 liquor license deposit	300.00
Interest on delinquent taxes	1,000.00

the fact that a revolt in Mexico was not actually in progress.

Fourth Cavalry Moving.

EL PASO, Tex., Nov. 20.—Two troops of the Fourth cavalry stationed at Fort Bliss have been ordered out on the border, presumably for patrol duty.

E. Z. Steevey, in command of the Fourth cavalry, declines to give out any information as to the movement of his men, but it is known positively that the two troops are now being gotten in readiness for service. The few sympathizers with General Reyes in Juarez are keeping quiet, and there are no evidences of activity in the vicinity of El Paso except the movement of United States troops.

Reyes Given New Bond.

SAN ANTONIO, Tex., Nov. 20.—Troop I, Third cavalry, Captain George J. Courtney, left San Antonio late yesterday for Laredo to patrol the Texas-Mexican frontier. Troop I will arrive in Laredo tomorrow morning.

Local Spanish newspapers published extras today after General Reyes had been arraigned before United States Commissioner Edwards, and gave a new bond of \$10,000 for his appearance on a charge of violating the neutrality laws and in conspiring against a friendly nation.

The papers charged the evidence against General Reyes had been manufactured in order to discredit him with his supporters.

General Reyes was cited to appear before the federal court at Galveston at a date to be fixed later.

The indictment charges that Reyes, Amador Sanchez, Antonio Monton, Jose Sanchez, and Severo Villareal, on November 11, 1911, "purchased and acquired 1,000 rifles, 20,000 rounds of ammunition, 100 horses, 45 saddles and a large number of blankets and other equipments and supplies, which arms, ammunition, horses, saddles, supplies and equipment were so purchased and obtained and are now in possession of General Bernardino Reyes and the four others to be used in carrying on a military expedition from the United States against the republic of Mexico."

The indictment was found on the testimony of seven witnesses who appeared before the grand jury.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

REFUSES REQUEST TO DELAY LAND CONTESTS

GRAND JUNCTION, Nov. 20.—Official notice has been received here that Secretary of the Interior Fisher has denied the request of Congressman E. T. Taylor, to postpone the contests involving lands under the proposed High Line canal. Congressman Taylor asked that the settlers, under the law passed a year ago, be allowed to file affidavits that they could not make a living on their lands. Secretary Fisher refused the request on the ground that the contests would thereby become too involved.

JOHN FRANCISCO, Nov. 20.—John Ann who sought and found justice by trying to impersonate suspects in sensational crimes committed various parts of this world, was recently released from custody, today, cause self-trimmed up charges ignored under public investigation.

SANTO DOMINGO PRESIDENT IS VICTIM OF ASSASSINS

WASHINGTON, Nov. 20.—President Ramon Caceres' of the Santo Domingo republic was shot yesterday afternoon as he left the house of Leonor Vasquez, at San Domingo City, where he had made a call. He died half an hour later. In the American legation, whence he was taken. The first shots of his assailants, Luis Tejera and Jaime Mote, Jr., according to advice received today at the state department, were not effective. The wounded president first sought shelter in a stable adjoining the American legation, but his assailants pursued him thither, and, closing in upon him, fired more shots. Friends of President Caceres dragged him, in a dying condition, to the American legation, where he died at 6:30 o'clock. The assassins fled to San Cristobal. George Endicott reports that the city is quiet and is patrolled by guards.

MOTHER RIDES MILES IN BITTER COLD TO SAVE SON

GRAND JUNCTION, Nov. 20.—With the eyes of her 4-year-old son almost destroyed and his right arm shattered, as the result of playing with dynamite caps, Mrs. C. E. Thousands Now Use This Low-Cost Cough Syrup

A扁平瓶装的，每瓶一盎司，零售价25美分。最便宜的，最有效的止咳药。

This prompt and positive results given by this inexpensive cough syrup has caused it to be used in more homes in the U. S. and Canada than any other cough remedy. It gives instant relief and will usually wipe out the most obstinate, deepest cough inside of 24 hours. It quickly succeeds, even in whooping cough and croup.

A 50 cent bottle of Pines, when mixed with home-made sugar syrup, makes a full pint—a family supply—the most pleasant and effective cough remedy that money could buy, at a saving of 25 cents prepared in five minutes—full directions in package.

Children take Pines Cough Syrup willingly, because it tastes good. It stimulates the appetite and is slightly laxative.

Both excellent features, typical for Pines—taste, strength, economy and a proven, successful remedy for all types of lung trouble.

Pines is a special and highly concentrated compound of imported Norway White Pine extract and is rich in galacto and other natural healing pine elements. Simply mix it with sugar syrup or starched honey, in a pint bottle, and it is ready for use.

Pines has often been indicated, but never successfully, for nothing else will produce the same results. The taste is guaranteed to overcome any aversion or sneezing reflex. Certificate of guarantee is wrapped in each package. Your druggist has Pines or will gladly get it for you. If you send to The Pines Co., 117 Wayne,

Mayor Presents Budget; City Council Will Act Tomorrow

(CONTINUED FROM PAGE ONE.)

Colorado Springs, Colo., Nov. 20, 1911.

To the Honorable Council of the City of Colorado Springs, Colo.—

Gentlemen:

"MAYOR'S BUDGET."

In accordance with the provisions of the charter, article 6, section 40, I herewith submit to you for your consideration and action thereon my "budget" of the estimated receipts and expenditures of all departments of the city for the ensuing year, to enable you to adopt an appropriation for tax levy for the year 1912, as follows:

ESTIMATE OF RECEIPTS.

Deficiency Bonds for 1910 tax.....	\$ 6,000.00
Interest on \$1,000.00 liquor license deposit.....	300.00
Interest on permanent taxes.....	1,000.00
Business license city clerk's office.....	15,000.00
Liquor license city clerk's office.....	15,000.00
Dog license.....	2,000.00
Police maintenance, dues and fees.....	2,000.00
Impounding stock.....	200.00
Ambulance fees.....	750.00
City scales fees.....	1,500.00
Milk licenses.....	150.00
Health department fees.....	500.00
City auditor's fees.....	1,000.00
Financial supplies.....	500.00
Colorado City sewer maintenance.....	500.00
Colorado City hydrant rental.....	700.00
Interest on cemetery endowment.....	1,000.00
Cemetery, care and care of lots, etc.....	12,500.00
Public library, fines, etc.....	1,500.00
City parks, (Palmer estate and privileges).....	7,500.00
Receipts from taxes (\$12,354,430 assessed valuation).....	\$ 77,550.00
Interest on \$1,000.00 liquor license deposit.....	240,655.00
Total receipts from taxes and licenses, etc.....	\$324,348.00
Total receipts from department water and water works.....	174,040.00
Grand total estimated income of city for year 1912.....	\$498,388.00

APPROPRIATIONS.

CABINET MEETING TODAY

Heiress Receives Her Share of Big Fortune

President's Cold So Far Improved as to Make Practically Certain the Regular Session

WASHINGTON, Nov. 20.—President Taft's cold had so far improved tonight, it was said, to be practically certain that the regular session of the cabinet will be held tomorrow.

If Dr. Delaney, the White house physician, has anything to say about it, the meeting will be held in the mansion.

The president's improvement today was so noticeable that Dr. Delaney said there was not the slightest danger of anything more serious than a cold development and that he himself felt no much better than he summoned Attorney General Wickenden, Secretary Nagel and A. H. Sanders of the tariff board to discuss various phases of his forthcoming message.

Secretary Hillis improved during the day.

TO CURE A COLD IN ONE DAY Take LAXATIVE BRONCO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S sign, turn is on each box. 25¢.

RADON LECTURE

(Continued from Page One.)

ing the same name. Many scientists have been injured by radon inhalations which produce important effects, and in two instances the injuries were fatal. A French scientist named Verneuil carried a small quantity of radon in his vest pocket from Paris to London for experiments and shortly afterwards as above developed breathing trouble through his body in direct line with the nose. His case, from the medical point of view, was considered to be the most remarkable of all the cases of radon inhalation.

The above conditions are based upon the deposits and inhalations of radon in the city for the past 15 months. I trust they will prove serviceable to the necessary requirements of the city and its citizens. The public health department during the coming year, I trust, will be greatly improved, particularly to eliminate from the bodies, particularly, the very important improvements planned for our citizens. My estimate for the year 1912 is based upon a 25-cent daily rate, which will be sufficient to cover the cost of the new administration of the city of Colorado Springs.

MEXICO SENDS

(Continued From Page One.)
the fact that a revolt in Mexico was not actually in progress.

Fourth Cavalry Moving.

EL PASO, Tex., Nov. 20.—Two troops of the Fourth cavalry stationed at Fort Bliss have been ordered out on the border, presumably for patrol duty.

E. Z. Steever, in command of the Fourth cavalry, declines to give out any information as to the movement of his men, but it is known positively that the two troops are now being gotten in readiness for service. The few sympathizers with General Reyes in Juarez are keeping quiet, and there are no evidences of activity in the vicinity of El Paso except the movement of United States troops.

Reyes Gives New Bond.

SAN ANTONIO, Tex., Nov. 20.—Troop I, Third cavalry, Captain George B. Cornley, left San Antonio at 9 o'clock tonight for Laredo to patrol the Texas-Mexican border. Troop I will arrive in Laredo tomorrow morning.

Local Spanish newspapers published extras today after General Reyes had been arraigned before United States Commissioner Edwards, and gave a new bond of \$10,000 for his appearance on a charge of violating the neutrality laws and in conspiring against a friendly nation.

The papers charged the evidence against General Reyes had been manufactured in order to discredit him with his supporters.

General Reyes was cited to appear before the federal court at Galveston at a date to be fixed later.

The indictment charges that Reyes, Amador Sanchez, Antonio Menton, Jose Sanchez and Severo Villareal, on November 11, 1911, "purchased and acquired 1,000 rifles, 20,000 rounds of ammunition, 100 horses, 45 saddles and a large number of blankets and other equipments and supplies, which arms, ammunition, horses, saddles, supplies and equipment were so purchased and obtained and are now in possession of General Bernardino Reyes and the four others to be used in carrying on a military expedition from the United States against the republic of Mexico."

The indictment was found on the testimony of seven witnesses who appeared before the grand jury.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

RIDS THE SYSTEM OF SCROFULA

Scrofula is a disease usually manifested in childhood, though some who are victims of the trouble reach manhood or womanhood before there is any manifestation of the trouble; but no matter at what age it shows, the disease germs are in the blood, and until they are removed there cannot be a healthy condition of the body. The ordinary symptoms of Scrofula are swollen glands about the neck, scalp diseases, skin affections, poor physical development, etc. S. S. S. has cured thousands of cases of Scrofula. It is the greatest of all blood purifiers, and by going down into the circulation and removing the germs and poisons, and enriching the blood by the creation of nutritive corpuscles, S. S. S. makes a permanent cure.

S. S. S. is a purely vegetable remedy, made entirely of health-giving roots, herbs, and barks, and is perfectly safe for persons of any age, or those in delicate conditions of health. No one need fear to give S. S. S. to a child, following directions, and the health it will bring to frail, delicate children will be a blessing to their parents.

If you or your child have Scrofula, write for our book on the blood and ask for any medical advice. No charge for either. S. S. S. is sold at drug stores.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

Personal Mention

Mrs. James E. Burns and children left yesterday on a three weeks' trip to New York city.

Mr. and Mrs. James Stewart have returned from a week's visit with Denver friends.

Miss Edith M. Pray, a reporter of the Hotel Bulletin, Denver, is registered at the Alta Vista hotel.

Miss Selma Manson, a musician from Chicago, has removed to this city, and is staying at the Acacia.

William A. Scully has returned from a trip to Oklahoma, Texas and Arkansas with the Hotel Alens association.

Mr. and Mrs. William Taylor of Los Angeles are guests of Mrs. Taylor's mother, Mrs. McFerran, and sister, Mrs. W. W. Price and family.

W. F. Davis of New York city, who spent the summer months in Colorado Springs, has taken an apartment at the Acacia for the winter.

Mr. and Mrs. E. L. Dentan, who were recently married in Sydney, Ill., have taken possession of their home, 127 West Second street, Ivivill.

Mr. and Mrs. Oliver M. Dickinson, Miss Grace Dickinson and Mr. and Mrs. John L. Pearce motored to Palmer Lake Sunday and dined with Mr. and Mrs. T. A. Hank at Ben Lomond ranch.

Mr. and Mrs. Joseph Ridgely, 1003 North Washburn avenue, are entertaining Mr. and Mrs. W. J. Morris. Mr. Morris, who formerly was professor of forestry at Colorado college, is on his way to Washington, D. C., where he will assume duties in the government forestry department.

Charles B. Peabody, a wealthy land owner and banker of Pittsburgh, Pa., has taken apartments at the Alta Vista hotel for the winter. Mrs. Peabody and her sister, Mrs. Stevens, will join him here in a few days.

What Kind of Music Do You Like?

SINGING? Have Melba or Schumann-Heink sing for you through the Victrola.

VIOLIN? Let Kreisler or Elman play for you on a Victrola in your own home.

PIANO? Paderewski will play his own mazurka for you on the Victrola.

BANKER CUMMINS IS HELD GUILTY THEFT

NEW YORK, Nov. 20.—William J. Cummins, the former Tettesser promoter and recent director and head of the Carnegie Trust company, was found guilty today of the theft of \$10,000 from the Nineteenth Ward bank by a jury before which he has been on trial for the last five weeks. He was remanded to the Tombs until Friday when his counsel may present any motions desired before sentence is pronounced.

Cummins seemed stunned by the result. His attitude throughout the trial was one of apparent innocence and cheerfulness. After the verdict was announced, the prisoner remained standing in an evident dazed condition.

When told by a court stenotype that he might sit down, he said huskily: "Thank you, sir," and sank heavily into his chair.

When his pedigree was taken the convicted banker's replies were scarcely audible, but before he was led from the court room he seemed to have recovered some of his composure.

At the Tombs, however, he broke down and sobbed.

"It is not myself that I am thinking about, there are others," he said, as he sat weeping on a bench in the warden's office.

Rising to his feet, he explained briefly:

"The fight is just beginning. I feel that I have done nothing wrong and I feel that if I was confronted with the same circumstances again I would do the same thing."

The jurymen were out five hours. They refused to divulge the nature of their deliberations.

The penalty for Cummins' offense is an indeterminate term of five to 10 years, as the maximum sentence.

Cummins is 50 years old and has a wife and a married daughter.

GOOD ROADS

(Continued from Page One.)
good roads, the secretary declared, that, as a result of object-lesson roads, constructed by the bureau in various states, nearly 10,000 miles of good roads had been built. "Last year it was found, from a careful investigation made in connection with 28 short object-lesson roads, none of them more than a mile in length, that 730 miles of additional road had been completed, and that an increase of \$1,500,000 had been expended in the work.

Services Are Free.

"These object-lesson roads," he continued, "are constructed under the direction of engineers from the bureau of good roads, whose services are given absolutely free of cost to the local communities, although the road itself must be built at the cost of the locality. Our laboratories, for the testing of road materials are now considered the foremost in the world, and provide for the testing of road materials to determine their relative value, such tests being made free of charge for any citizen of the United States.

In addition, our laboratories are working constantly on the problems of devising materials and combinations of materials for the construction and treatment of roads to meet modern requirements.

The law under which Westlake was sentenced provides that a husband or father who fails to provide for his family shall upon conviction be put at work for the county and paid \$1.50 a day, the money to be paid over to his family.

traffic conditions brought about by the introduction of the automobile."

He spoke of a number of experiments made in various places, with different kinds of road material.

Enormous expenditures for road improvement during the past few years, he asserted, make it necessary for the work to be done right and the money wisely expended. The resources of the department of agriculture help local authorities in getting their money's worth whenever they had any roads to build, were, he declared, open to the command of the various communities.

The most important subject in connection with the whole question of road improvement, in Section 1 here, "The people in many countries are filled with enthusiasm for road improvement," continued Director Page, "and are hastening to spend enormous sums of money in the construction of superb roads, and yet, almost without exception, they are making no provision to care for the roads after they are built. The same holds true with reference to road construction under many of our state highway departments."

Mr. Page said it required considerable annual outlay to keep roads in good condition, but that this outlay was infinitely less than the loss which must fall upon the people eventually if they allowed their roads to go to ruin. "Provide continuous, systematic maintenance and set aside every year an amount per mile estimated by the engineer in charge," he advised, "to be sufficient for the proper maintenance of the road, and you will follow a course which must make for economy and efficiency."

"It is necessary," declared Mr. Page, "that a thorough campaign of education be conducted in every locality where the burden of bad roads hangs like a millstone about the necks of the people. In this campaign of education, three things are essential: First, that your work must have a definite object; second, that your plans must be practicable; and third, that they must have intrinsic merit."

In launching the American Association for Highway Improvement, we endeavor to fulfill these three requirements by the announcement of definite purposes, easily capable of accomplishment, and containing such intrinsic merit that their general adoption would place road conditions in this country on a sound and economic basis.

RAILROAD CASUALTIES

TUBERCULOSIS, cancer, the "unloaded" gun and other familiar agencies of death are being crowded hard for first place by the practice of walking on railroad tracks, according to recent figures compiled by the Interstate Commerce Commission. Every day the newspapers print brief accounts of such accidents, but the public scarcely realizes the seriousness of the danger. But Accident Bulletin No. 40, issued by the Commission a few days ago, contains this startling statement for the current year:

Trespassers killed in railway accidents..... 5,284
Trespassers injured in railway accidents..... 5,614

Total killed and injured..... 10,898

There is no official data for the year 1909, but the reports of the commission for the ten years 1901-1911, exclusive of 1909, show that in that period 50,708 people were killed and 54,183 were injured while walking on railroad tracks. Here is a total of 104,891 casualties due to trespassing in ten years. It is not surprising that the railroad companies and many of the railroad commissions are trying to secure the enactment of laws expressly forbidding walking on the tracks.

It would seem that the American public ought to be sufficiently convinced of the ability of the railroads to kill and maim people in unavoidable accidents without swelling the list by its own inexcusable carelessness. The person who walks on a track of course depends on his sense of hearing to warn him of the approach of a train. But usually his mind soon becomes absorbed in other things, and especially if he is going against the wind it is easy for a train to slip up behind him unheard.

If 5,284 people were killed outright and as many more injured in one great holocaust, the whole world would be shocked beyond expression. But the same loss of life and limb goes on year after year in this commonplace fashion and nobody cares.

INGERSOLL

PEORIA, ILL., was the home of Robert G. Ingersoll. In that city, on October 30, a statue of the great orator and free-thinker was unveiled. Among the speakers at the ceremony who paid tribute to the memory of Ingersoll were Charles Frederick Adams, eminent orator; John J. Lentz, congressman from Ohio; Rev. B. G. Carpenter of the Universalist church, and Judge French of Davenport, Ia. Letters were read from Thomas A. Edison, Andrew D. White, former President of Cornell University; Andrew Carnegie, Professor Ernst Haeckel, German scientist, and Rev. Bolton Hall of New York.

Time alone can determine the value of any man's contribution to the solution of great questions; time alone can finally determine who was right and who was wrong, who were the prophets and seers, and who were the charlatans and demagogues. When questions are no longer burning, when personalities are viewed from the vantage point gained by the lapse of years, then the perspective becomes clearer and judgment more certain, prejudices and animosities are settled with time.

Twelve years have passed since the death of Robert G. Ingersoll. The judgments formed of him and his work today are a better augury of the position that Ingersoll will occupy in history than the judgments formed during the heat of controversy twenty years ago. The expressions of opinion at the ceremonies in Peoria in both speech and letters are interesting and illuminating.

The judgment of all was that the one thing above all things that Ingersoll stood for was freedom; "he wanted the shackles off everywhere." He wanted men to think for themselves about all things, he demanded inde-

pendence and moral courage. He wanted men to follow wherever truth might lead them."

Thomas A. Edison wrote:

"Some day when the veil of superstition is lifted Ingersoll will stand out as a great personality."

Andrew D. White, former United States Minister to Russia and Ambassador to Germany, wrote:

"Though differing from Colonel Ingersoll on various minor matters, I still retain respect and admiration for him as one who fought a great and good and brilliant fight for the rights of conscience, of free thought and free speech."

Andrew Carnegie wrote:

"We think less of belief now and more of conduct than in the early days, and the Colonel rebelled, and with his emotional and oratorical nature his way of putting things sometimes alarmed the timid; but apart from all this, I know of no man who had more of the truly Christian virtues and a purer, nobler nature than he. His would indeed be hard to find—a high and lofty character seeking only the good of his fellowmen."

Professor Ernst Haeckel sent the following from Germany:

"The memory of this distinguished philosopher and free-thinker is already finding in wide circles the grateful recognition which it deserves. His courageous and devoted battle for intellectual liberty will live forever in Germany as well as in America."

What Ingersoll's critics of ten to twenty years ago held to be his chief fault—the presentation of his argument in such a striking and dramatic way as to attract the attention of the multitude—now appears to be one of his chief merits. It seems that in no other way could the fight for intellectual freedom gain general notice. Essentially the same position as that taken by Ingersoll was taken by President Andrew D. White in "A History of the Warfare of Science with Theology in Christendom." However, President White's work was both too scholarly and voluminous to reach any except the few who had the time and the training to appreciate it.

Perhaps it is too soon after Ingersoll's death to make a correct judgment of what he did. The quotations that we have given, nevertheless, indicate the essential thing for which Ingersoll will be remembered.

FROM OTHER PENS

WHAT IS RUBBISH?

From the New York Evening Post.

Euthanasia for useless books in libraries, as proposed by Mr. Edmund Gosse, has often been practiced. The chairman of the library committee of the National club writes recently sending \$100 volumes to the pulping mills, and has yet to hear of a resulting complaint. But who are to be the literary coroners, in a great public library, to pronounce a volume dead? On this point Mr. George Saintsbury, in an interview he had many years ago with the late Dr. Richard Garnett in the British museum, "Taken by the latter behind the scenes, I was thoughtless enough to ask, 'What do you do with the rubbish?' He turned to me, with that quaint little smile and how which many people will remember and said, 'Well, you see, it's very difficult to know what is rubbish today, and quite impossible to know what will be rubbish tomorrow.' It appeared, and appears to me," adds Mr. Saintsbury, "that this finishes the question."

THE CAREER OF JOSEPH PULITZER.

From the Chicago Record-Herald.

The story of the rise of Joseph Pulitzer from extreme poverty and obscurity to power, affluence and national prominence is as romantic as it is typically American. Mr. Pulitzer's career is another notable illustration of the truth that the "other name" for this republic is "opportunity."

Mr. Pulitzer was an exceptionally able man, a man of energy, enterprise, industry, ideas and courage. He was a born journalist, and when he had once found his calling there was no stopping him on the road to brilliant success. He had the defects of his qualities, and they led him into error at times. But on the whole, he labored zealously and independently for the perpetuation of the institutions to which he owed so much—for freedom, political and social reform of the moderate and constructive sort, for good government and good citizenship. He began life in America as a socialist; he ended it as a moderate progressive and champion of sound constitutional development.

His great newspapers have been, in recent years, potent factors in journalism and politics. Mr. Pulitzer had gradually elevated his own standards and had carried his constituencies with him. In his success, and in the way in which he used his influence and power, the young men of today, native or foreign, should find inspiration and hope.

THE DAILY CHIT-CHAT—
By RUTH CATERSON

There is a certain portion of my ancient history which I don't think I shall forget to my dying day. It is the description of the way in which the barbarians punished an offending general. He was chained down on the deck, face upwards under the burning African sun, then his eyelids were cut off, and he was left powerless to turn away his eyes from the terrible rays, to suffer until he died or went mad.

Horrible, isn't it? And yet somehow I was reminded of it when several of my bitter friends urged me to speak up for the babies whose mothers, fathers and caretakers, while not intending to be cruel, actually do maltreat the little ones, by exposing their eyes to glaring light.

Writes one woman, "Can you exhort mothers to shade the eyes of their babies from bright light?" I am often near babies blinking, but I hope you can protest. That little case are watched over for eyes. I once met a man in the business streets wheeling a baby tilted back to the blinding sunshine, so that the baby was blinking and blinking in evident discomfort. I mastered courage to say, "Your baby's eyes!" He promptly and sympathetically replied, "The sun-

shine is good for him." Of course, it is good for his body but not for his eyes. I know a man who went blind, because he was left asleep outdoors with the sun shining in his eyes."

Surely this is something about which mothers and fathers cannot be too careful. Yes, of course, seven-eights of them are already taking every precaution.

But it isn't for those that this is written.

I was calling on a neighbor of mine the other day, when her little boy, who is only four years and a half old, came home from an errand on which she had sent him.

The errand was one which had taken a 10 minute walk, including two crossings.

"How do you ever dare let him cross those streets?" I questioned.

"I wouldn't," said the mother. "If it were not for the training we have given him, Phillip never steps into the street until he has carefully looked both ways and seen that nothing is coming."

"Ever since he was old enough to know anything at all, I have trained him that way until it is just as much a habit as it is for him to eat with a spoon instead of with his fingers. Even when he is playing and his ball rolls into the street, he never runs out after it until he has looked both ways to see if the road is clear. Of course, it has taken a good bit of talking, insisting, and some punishment, but I think it has all been worth while, for I feel so safe about him. Besides I think the habit is one which will be good for him to have all his life."

Since that day I have seen Phillip alone two or three times and seen him cross the street in just the manner his mother described, so I am sure she has reason for her confidence.

Now, don't you think her method of inculcating a habit of carefulness is a better way to guard a child's safety, than simply to grasp his hand when you come to a crossing and tow him willy-nilly across?

Of course, towing him across is a very simple and safe way when you are with him, but you can't always be with him, especially as he grows older, whereas the habit of looking both ways before he tries to cross a street, if deeply enough inculcated, will be his constant companion.

Phillip's mother said further that even when she and his father were out walking with him they did not take hold of his hand at a crossing, but simply reminded him to look sharp, and thus taught him to assume responsibility.

When one sees adults alight from a car and start to the sidewalk or launch themselves into a busy thoroughfare, looking neither to the right nor left, one can fully endorse the idea that this habit of keeping his eyes open will be a unique and much-to-be-desired safeguard to Phillip.

And incidentally to any other child.

Truth Comerson

Sunflower Philosophy

Said Mary, in her Moated Grange: "The life I lead has got my goat. I surely suffer for a change, and so methinks I'll have to vote. I'm tired of holding on my knees. Angora cats and dogs! I wish I'm tired of pink and yellow teas. I'm tired ASPIRING of playing bridge and whist. I'm tired WOMAN of reading at the clubs long papers that I got by rote! I'm tired of arguing with dubs, and so methinks I'll have to vote. My husband's life is picturesque; no trace of ennui can he know; he merely labors at his desk, and digs up wealth for me to blow. When he was but a humble clerk, and drew the slimpest sort of pay, I used to stay at home and work, and then I sang the livelong day. But when we prospered, and the dough came rolling in, I turned work down, I hired me servants, and would go to every jamboree in town. I haven't washed a dish in years, or stewed a prune, or swept a floor, and I am tired and weary with tears, and my poor heart is sad and sore. An idle woman's life is vain; her thoughts are oft too fierce to quote; my futile days give me a pain, and so methinks I'll have to vote."

Little Bobbie's Pa
By WILLIAM F. KIRK

Pa and Ma took me to a Literary Nite last nite. It was gave by Mister & Missus Green-Brown. I wish they had never gave it & I wish that they cud take it back.

Pa & me didn't want to go at all, but Ma-wud have fad us if we hadn't went, so we went. Ma said that Mister & Missus Green-Brown, was the most lit-terary peopl that she had ever met. They are all the time rit-ing, sed Pa.

That is very noable of them, sed Pa. The only peopl that are all the time rit-ing to me is at-torneys at law, & I suppose that after I am ded, sed Pa will keep on rit-ing to my hears & assanes forever.

Well, anyway, we all went to see the Green-Brown & their literary Nite. There was about fifteen peopl ther & they all had there hands up high when they shook hands. Pa's arm was nearly broak reaching up so high. He told me that he wud hate to be the President of the U.S. & have a few thousands of them kind of peopl shaking hands with him.

Pa is a pretty wise old cova. He told me on the way over to the house that we wud git started up aginst a lot of bum comedians & sure enuff they didn't entertain us any. There was one littel fellow named Fredricks that was introduced by Missus Green-Brown & the sed Ladies & gentlmen, this is Mr. Fredricks of Denmark. He hasn't been here very long, but as soon as he git settled he is going onto the stage. Then Mister Fredricks got up & sed: Here is a poak that I have heard, a man went down town & bought a wooden whistle & wen he brought it up town it wudnt whistle. Nobody laffed. What did you say his name was?

sed Pa to Missus Green-Brown, & where was he born?

He was born in Denmark, sed Missus Green-Brown. I suspected as much, sed Pa, he is certinty one melacholy Dane.

Maybe you didn't understand the joke, sed Mister Fredricks pointing his finger right at Pa. Doant point your finger at me, sed Pa, I am super-stitius. Tell yore story aginst if you want to, but go easy with that finger.

Well, sed Mister Fredricks, there was a man once that went down town & bought a wooden whistle & wen he came home aginst he tried it, it wudnt whistle. Doant you see the point. Wooden Whistle, Wudnt Whistle.

Talesman Is Excused

Account of Sickness

LOS ANGELES, Nov. 20.—Talesman popped in and out of the jury box in the McNamara murder trial today, making a scene of activity but small progress. Then activity died down in the afternoon session under an extended examination of M. F. Mooney, a talesman, and it became necessary for a bailiff to awaken one man who fell asleep in court.

F. A. McBurney, a builder, was passed for cause by both sides.

Talesman Mooney was a miner in Lackawanna county, Pa., 40 years ago, and he then belonged to a union. He is an Irish Catholic, as is James B. McNamara, who is on trial. Since leaving Pennsylvania, Mooney has belonged to the National Association of Stationary Engineers, which is affiliated with the American Federation of Labor. He also is a member of the Los Angeles Catholic Mutual Benefit association of which Attorney Joseph Scott, of counsel for the defense, is a member, and he knows Scott.

All these circumstances were regarded by the defense as favorable; and after obtaining a little more information, Attorney Clarence S. Dartow, chief of counsel for the defense, accepted Mr. Mooney as to cause and turned him over to the state. The rest of the afternoon was consumed in his examination by Assistant Attorney Vermilyea.

Excused Because of Illness.

Talesman William Nicholson was excused from service today because of the suddenly developed illness of his wife. The incident recalled a long list of jurors excused thus far because of their own sickness or that of members of their families, and the fact that a brother of J. B. Sexton, a sworn juror, is critically ill.

Byron Lisk, another sworn juror, has trouble with his eyes, and out at Pomona the wife of Juror F. D. Green is threatened with nervous prostration.

Two venires not yet summoned to the jury box were excused, each because of illness of his wife.

Excused Because of Illness.

Talesman William Nicholson was excused from service today because of the suddenly developed illness of his wife. The incident recalled a long list of jurors excused thus far because of their own sickness or that of members of their families, and the fact that a brother of J. B. Sexton, a sworn juror, is critically ill.

At a meeting of the members of the El Paso club it was decided to borrow \$5,000 to complete the new club building. The membership had increased from 75 to 100 during the past year.

MICHIGAN'S RETURN TO
CONFERENCE IS RUMORED

GRASS DIAMOND
INDOORS A NEW
STUNT AT YALE

BOULDER TEAM MAKES
BEST RECORD TO DATE

MINNEAPOLIS, Minn., Nov. 20.—That the University of Minnesota is planning to induce Michigan to return to the western conference was stated in university circles here today. It is said that with Michigan back in the conference, Minnesota and Michigan will begin a battle for a general reorganization which will tend to better athletic conditions in the west.

"Michigan is entirely satisfied with the game her men put up," is the way Dr. H. L. Williams, Minnesota coach, views Saturday's battle. "Every man did his best. The score, Wisconsin made might be considered almost in the nature of a fluke. I might say a gift. The amulets sounded his horn for a foul when Minnesota kicked. Every man on the Minnesota team then stopped and made no effort to check Wisconsin runner, who had caught and was running back with the ball. When he had gone by the team and captain saw that he had not stopped at the horn, Capron made a wild dash of him, but stopped as he tackled and missed him. Wisconsin refused the penalty for which the horn had been down and so had an easy touchdown.

Then stopped and made no effort to check Wisconsin runner, who had caught and was running back with the ball. When he had gone by the team and captain saw that he had not stopped at the horn, Capron made a wild dash of him, but stopped as he tackled and missed him. Wisconsin refused the penalty for which the horn had been down and so had an easy touchdown.

A ball hit on a gym or armory floor bounds and scatters along so true that very few fumbles are made, but when the players, after all their hard work of the winter months, go out on the regular diamond, the change works so disastrously that coaches of college teams had about made up their minds to cut out gym baseball practice entirely.

The indoor grass diamond is expected to obviate all that trouble, and the experiment at Yale will be watched with interest.

By SAM CRANE.

NEW YORK, Nov. 20.—An indoor grass diamond is the latest wrinkle in baseball.

Yale is the first college to take up the idea, and already has sent for Groundkeeper Murphy of the Polo Grounds to construct a diamond in the baseball cage.

If the plan is as successful as the promoters of it expect, it may make a complete change of the present arrangements to send professional baseball teams to the south for spring practice.

It is said that the management of both the American and National league are awaiting the outcome of the experiment at Yale.

An indoor grass diamond will be an innovation in baseball. The fielding of hard-hit balls on a hard floor, while it gets the muscles of players into proper action, has been found to work disastrously to the players when they get out into the open after their winter's practice.

A ball hit on a gym or armory floor bounds and scatters along so true that very few fumbles are made, but when the players, after all their hard work of the winter months, go out on the regular diamond, the change works so disastrously that coaches of college teams had about made up their minds to cut out gym baseball practice entirely.

The indoor grass diamond is expected to obviate all that trouble, and the experiment at Yale will be watched with interest.

COACH STAGG PREPARES FOR CHICAGO-WISCONSIN GAME

CHICAGO, Nov. 20.—Practice by the football team of the University of Chicago today brought new hope to the members of the team for favorable results in the Wisconsin game Saturday. Substitutes were given a light drill and Coach Stagg announced he had selected a complete substitute back field for emergency for the first time this year. Now forward pass plays and speed are being cultivated by the Maroons' coach. Captain Rademacher, the only regular player severely bruised in the Cornell game, was on the field today, but he will not engage in heavy work till Thursday.

Clem Crowley, captain of last season's Denver team, was one of the of-

fields in the Tiger-Mines contest and was in a position to follow the play closely all the way through. He was greatly impressed with the playing of the Tiger lads and declared it to be much stronger than Denver's.

"Both are the stronger line of the two," said Crowley, "and the way the men worked the shift play was marvelous. They have the weight, the speed and the football knowledge to make the shift a successful play. Head showed up as one of the best plunging backs in the Rocky mountains, and the contest between this player and Kompsman, of Denver, for the plunging honors will be an interesting one. Denver will have to play better football than it has thus far if it hopes to beat the Tigers."

Washburn field was deserted yesterday afternoon, except Rothig ordering that no practice be held until today. He reviewed the entire Mines game, however, to the football squad in the gymnasium, pointing out the good qualities as well as the defects.

Begaining this afternoon, there will be daily practice in preparation for the big Denver game, which promises to be a great contest.

County Tax Levy Is 9.6 Mills

The county tax levy for 1912 was fixed yesterday by the county commissioners at 9.6 mills. The school levy will be 6 mills. Both are the same for the present year.

It is said that the difference between the appropriations and the amount to be raised by taxation, \$57,930, will be made up in receipts from various sources. In addition there will be a surplus in a number of departments. While \$35,000 is appropriated for roads and bridges, as against \$6,615.45 to be received, the commissioners expect the difference to be made up by a state appropriation. Funds for good roads, appropriated by the state this year, were not paid.

The tabulated statement below shows the tax in the various funds, irrespective of the general school tax, the amount to be raised by taxation on an assessed valuation of \$22,265,160, and the amounts appropriated:

Fund.	Tax.	Amount Raised	Amount Appropriated
Ordinary county revenue	5.2	\$115,429.78	\$150,000
Roads and bridges	3	56,615.45	35,000
Support of poor	15,542.50	20,000	
Improvement	5,882.06	2,000	
Contingent fund	1	2,220.52	2,000
Special advertisement	2	4,491.04	4,600
Totals	9.6	\$210,169.35	8271.100

"If I had my way, Mr. Roosevelt, you would be Perpetual President of the Hague Peace Tribunal!" says

CHAMP CLARK
Speaker of the House of Representatives.

IN THE LADIES' WORLD

DECEMBER NUMBER

His article is the leading feature of the Silver Anniversary Number of this great magazine. Everyone who is a believer in true Americanism must read it.

OTHER CONTRIBUTORS

Mrs. Robert M. La Follette, wife of Senator La Follette, in her article, "Twenty-five Years of Woman's Progress," predicts that the woman of the future will be the equal of the man in every branch of life. Read it.

Edwin Markham contributes a noteworthy poem.

Stories by John Luther Long, Florence Morse Kingsley, Beulah Marie Dix, Edith Barnard Delane

Every page of this number has something for you. It is the great Jubilee Number of The Ladies' World and it is on every news-stand today.

Turkey Talk

Thanksgiving is a week from Thursday. Have you ordered your turkey? Good ones will be scarce. Better telephone your order at once.

We can't declare a definite price just yet, but we will give all our customers the benefit of the market.

Remember, our turkeys will be of the best quality obtainable, plump and tender. Don't be misled by cheap prices. You don't want a scrawny, tough turkey at any price.
